Move and Improve with Standing Desks

LEARNFIT

Physical Health

The act of standing in the classroom promotes a healthier metabolism:¹

- ▶ Increased heart rate
- ▶ Increased calorie burn
- ▶ Greater insulin effectiveness

Classroom Engagement

Better oxygen and nutrient transport throughout the body and brain translates into greater student engagement.²

Academic Performance

The combination of better health and engagement has a positive effect on cognition and test scores.³

“ I’ve noticed that my higher level kids are performing even higher than normal. And my lower level kids are performing higher as well. Being able to focus in the classroom translates to better comprehension of the material.”

Keri King

Biology Teacher, Lamar High School, Houston, TX

KINESTHETIC BRAIN BREAKS

x2 **RECOMMENDATION:**
TWICE THE DAILY ENERGY EXPENDITURE AS EXERCISE

¹ This study was conducted by Dr. John Buckley at the University of Chester. BBC/University of Chester researchers found that both heart rate and energy expenditure were raised significantly by standing work, and that sit-stand desks are both feasible and effective at reducing sitting time in a work setting.

KIDS ARE MEANT TO MOVE!

Easy Assembly

Tablet Slot: Accommodates iPad®, Surface™ Pro and other Windows tablets in portrait or landscape position.

Cup Holder: Maximize your workspace and keep hydrated.

Pencil Tray: Keep writing instruments from rolling around when students are rolling around the classroom.

On-Demand Height Adjustment: Students can adjust the height of this standing desk themselves. Just squeeze the handle and move from a standing position to a stool-height stoop.

Backpack Hook: Neatly store backpacks to make desk reconfiguration even easier.

Casters: Reduce the chaos of classroom reconfiguration! Four dual-wheel casters (two locking) for smooth and seamless small group breakouts.

Storage Bin: Holds books, binders and other class supplies.
